## **PPSV ATTORNEYS AGAIN ON CHAMBERS' LIST OF AMERICA'S LEADING BUSINESS LAWYERS**

*Firm recognized as leader in Healthcare Law*

Powers Pyles Sutter & Verville PC is pleased to announce that partners Mark Fitzgerald and Robert Saner were again selected for the 2008 edition of *Chambers USA - America's Leading Business Lawyers*. Chambers' rankings were compiled from over 5,000 independent interviews with top business leaders and legal advisors. Chambers investigated the top firms and lawyers in over 20 areas of commercial law and applied a ranking of 1-6 based on reputation in the market, technical legal ability, professional conduct, client service, diligence, and commitment. Of Powers Pyles Sutter & Verville, the Chambers editors state:

**The Firm:** "This 'highly responsive' boutique healthcare firm offers expertise on a range of matters, including fraud and abuse, political strategy and healthcare transactions. Particularly recommended by clients for its Medicare reimbursement practice, it has a particular niche in healthcare issues involving disabled patients. Clients are 'uniformly impressed' by these lawyers, describing their quality of research, analysis and structured arguments as outstanding."

**The Lawyers:** "The 'absolutely wonderful' Mark Fitzgerald concentrates on Medicare fraud and abuse, healthcare contracting and corporate law. He works alongside Robert Saner, who complements his practice with a focus on the regulatory and legislative aspects of both healthcare and environmental law. Clients find that Saner has 'the knowledge needed to overcome obstacles and provide strategic forward-thinking.'"
